

RE-SAMPLE PATIENT SURVEY

What is RE-SAMPLE?

The purpose of RE-SAMPLE is to develop eHealth applications that support patients and healthcare professionals to manage COPD and complex chronic conditions.

UNIVERSITY
OF TWENTE.

Who are we?

Roessingh Research and Development (RRD) is a research institute in the area of rehabilitation technology and telemedicine located in Enschede (The Netherlands) and one of the project partners in RE-SAMPLE.

Who are you?

A person of 18 years or older who have been diagnosed with COPD (Chronic Obstructive Pulmonary Disease)

What is this survey about?

Learn from patients who live with COPD about their experience, how they manage their disease and where they would like more support.

Around 15 minutes

Only complete questionnaires will be used

How will your answers be used?

The data in this questionnaire will be collected **anonymously** and contain no personal data that can be traced back to you. The answers you give will only be used as part of the RE-SAMPLE project and processed by researchers at RRD.
